

SAFESPEAR

THE SHARP END OF SAFETY

COCOON HABITAT SERVICE

The SafeSpear Cocoon Pressurized Habitat with the Einstein Control System empowers your team with unparalleled safety and flexibility in hazardous environments. Experience peace of mind knowing that your welding scope is safeguarded with our innovative habitat solution.

The SafeSpear Safety Technology team have over 30 years of combined habitat and pressurised welding enclosure experience. We have experience in design, certification, quality management, safety and habitat operations and can offer just the habitat product or a full turnkey solution for your project. We are responsive and understanding and will work with you to perform your hotwork operation safely.
